The Grand Marnier Club

Originating in 2003 as a Grand Marnier bottle club, the thought was that if Mike could sell enough memberships to fill our charter member case located by our front door, OEM would be a huge success. We now have over 3,000 members in our club, and claim the title of being the world's first & largest Grand Marnier club, selling more Grand Marnier than any bar, restaurant, nightclub, cruise ship, and casino in the world! All of the bottles that you see displayed around you are not just for show; they actually belong to members of our club.

We offer two different memberships here at One-Eyed Mike's - "Grand Marnier Cordon Rouge" and "Grand Marnier Quintessence"

One-Eyed Mike's has become widely known for our food, quality of service, and of course our world famous "Shot In The Dark". What is Shot In The Dark? The easiest way to find out is to come in one night around 1:45am and grab a shot of Grand Marnier.
